### Preparing to cast.

Please note that this newsletter (with no news) is only to inform readers that SCFA is still a going concern, despite Boss Cyril's best attempts to send us into oblivion. If he does not unlock us soon, he will no longer be called "Boss" and his name will be spelt with a small "c"!!!!!!!!!!!!!!

**Note:** The "Events Calendar" given below will not take place, it is only to show what would have happened if we had been given free rein.

### Last Cast.

I trust that all readers and their families are well and have escaped the ravages of the virus. I sincerely hope that we are soon allowed to wet a line, even if it is only on our own beaches. According to our local SAPS office, one may walk on a beach, but recreational fishing is not allowed under Stage 3. Matters seem to be fairly fluid at present and there are regular changes being introduced into the schedule, so if any one hears some good news, please give Steve or myself a shout and we can let everyone know. Till then, keep well and try and find the shiny side of things. There must be at least one side that is less dull than the others. Cheers.

Arthur
